

# eBallot Delivery

Secure ballots delivered to remote voters, increasing access and efficiency. Choose from simple ballot downloads to allowing voters to mark their ballots on-screen, and return their ballots electronically.

“ We wanted to **modernize our elections** process and **provide an online voting alternative** to fax. The solution had to offer a **secure option for ballots to be received and returned online**. The ScytI solution was selected and we implemented it for the 2012 Presidential election.

We had a **very positive response from voters** with over 7000 ballot returns made through the secure ScytI eBallot Delivery system. ”

Gail Fenumiai, Former Director, Division of Elections  
State of Alaska

## Simplify with Automation

- **UOCAVA** eligible voter sign-up
- **Voter notifications** when ballots are available and change, and when ballot status changes
- Integrate with **legacy infrastructure**
- **Easy integration** with ScytI Voter Education

## Increase Trust, Reliability, and Access

- Ballots are **private and secure** during download, marking, and return
- Go **paperless** - allow voters to download, mark on-screen, and submit ballot online, on the voter's schedule
- **Track ballot** status - know when it was downloaded, submitted, and if it was counted
- **Prevent** common **voter errors** such as over-voting

## Global Constituents

**5,700,000**  
Americans Living Abroad

**1 in 2**  
Are eligible voters

**4%**  
Of eligible overseas voters' ballots were received in 2014

**3 in 10**  
Eligible voters did not vote because they struggled to complete the process

# About ScytI

Simplify Your Elections

## Voter Education

Expand voter outreach through a custom web experience. Constituents can view sample ballots, find their precinct and polling location, and more.

## eBallot Delivery

Secure ballot delivered to remote voters, increasing access and efficiency. Choose from simple ballot downloads to allowing voters to mark their ballots onscreen, and return their ballots digitally.

## Election Night Reporting

Provide realtime election results visually with maps and charts, perfect for social sharing and consumption.

## Online Election Worker Training

Provide election workers a consistent interactive training program, available on their personal internet connected devices, at home or on the go.

## Election Worker Management

Streamline recruitment, hiring, training, and scheduling through one simple solution. Optimize repeat worker deployment with digital evaluation records.

## Legislative Session Management

Make legislative decisions with modern digital meeting management and online voting through one central, flexible program that integrates with existing hardware and software. Increase in-chamber portability, and reduce paper waste.

**Secure**

**Flexible**

**Mobile-Friendly**

**Accessibility Compliance**

**Scalable**
