

# invote

by ScytI

secure  
online voting  
made easy

Simplify the elections process for your office while allowing your voters to participate from anywhere in the world, on any device.

## Why Invote

### Efficient

Reduce staffing and eliminate paper-related costs, with an easy election set-up and digital results delivery.

- Fully managed solution
- Simple set-up form
- Automatic results calculation

### User-friendly

Reduce barriers by allowing voters to vote at their convenience from any location, on any device, at any time.

- Tailored user interface
- Accessible to handicapped voters
- Confirmation receipts

### Secure

Government-level security to ensure that votes are kept secret and tamperproof at all times.

- Encrypted from start to end
- Digitally signed ballots
- Ballot box mixed before the vote count

## How it works

01

### Prepare

As simple as filling in a form with your election information. **A dedicated project manager** sets everything up and shares a preview for your approval. Then, credentials are securely provided to voters.

02

### Vote

Voters cast their ballot, which is encrypted on their device so that **no one can tamper with it**, and receive a confirmation receipt. During the election, a participation report is sent to you on a daily basis.

03

### Count

Once the election is over, the digital ballot box is mixed so that **votes and voters can never be matched**. From there, votes are decrypted, counted, and reported on for the final election results.

AVERAGE **34%**  
**COST REDUCTION** WHEN MOVING FROM  
TRADITIONAL PAPER-BASED PROCESSES  
TO MODERN ELECTIONS\*

\* 3-year ScytI customer average.
